DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris Bennett on 6/11/2007.

The application has been amended as follows:

--claims 37-48 have been canceled

Allowable Subject Matter

Claims 25-36 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim 25, the allowable features being an eyeball accommodation range determination unit for examining optical performance of an eyeball within a range of accommodation of the user in the eyeball optical model

Art Unit: 2873

decided by the eyeball optical model deciding unit to determine the range of accommodation of the eyeball. Therefore claims 25-36 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
